

BEARING MAN GROUP

INTRODUCING BMG: THE SINGLE, UNIFIED IDENTITY OF OUR CONSOLIDATED GROUP OF COMPANIES.

- ONE reliable source of an unsurpassed range of quality engineering components.
- ONE streamlined organisation with the combined skills, resources and expertise to help you optimise your specific operations.
- ONE powerful vision to be an integral part of the productivity of each customer's business.

Extensive market research confirmed that our customers were calling for a single, easily accessible source of products, service and expertise that would surpass our companies' separate offerings in the past. To better deliver to this industry demand, the time had come for us to synergise our brands. Now, as a combined force with well over 100 outlets in Southern Africa, BMG is strategically positioned to service all sectors of industry. Over the next few months, you can expect to see BMG undergoing a re-branding exercise as we apply our new brand identity and ethos to every aspect of our operation. Our components have always played an integral role in your business. Now we're pledging to be more involved too. Proud contributors to your success. Part of the process.

SANS ISO 9001:2000

BEARING MAN GROUP

THE BMG CIRCLE IS FORMED BY THE PRECISE INTERLOCKING OF THREE IDENTICAL ARCS, EACH REPRESENTING A FUNDAMENTAL ASPECT OF OUR OFFERING:

Quality Components *Technical Expertise* *Superior Service* | PART OF THE PROCESS

BMG BEARINGS

The BMG Bearings Division: Proudly supplying a broad spectrum of industry with bearings ranging from giant steel mill bearings to miniature needle bearings. Over the years, BMG has nurtured ongoing, well-established relationships with several globally recognised brands, making BMG the leading bearing supplier in South Africa.

BMG SEALS

The BMG Seals Division boasts the widest range of superior quality seals on the continent serving a myriad of applications. These seals are available directly from the BMG branches as well as from our exclusive seals outlets trading as BMG Sealco.

BMG POWER TRANSMISSION

The BMG Power Transmission Division currently leads the Southern African market with some of the most powerful, respected brands in the world. It continually sources innovative, cutting-edge products that deliver to our customers' individual needs. The division is also developing a range of BMG branded premium quality products.

BMG DRIVES

The BMG Drives Division offers an unparalleled range of industrial gearboxes and electric motors for all applications from mini-scale to enormous industrial and mining applications. BMG strives to play a key role in finding effective solutions to South Africa's need for power-efficient systems.

BMG BELTING

The BMG Belting Division is made up of several strategically located, specialist belting hubs, offering an innovative belting service to a diverse range of industries. This division does so much more than just supply belting products to our customers. Our Hub workshops

include a strong focus on customer service as well as customising belt products to size and application.

BMG FASTENERS

The BMG Fasteners Division, along with its trade arm, Springset, is currently taking the fastener market by storm. This division is growing rapidly, fast becoming a leader in the South African fasteners market.

BMG FILTRATION

The newest addition to the Group is the BMG Filtration Division. This division supplies filtration, separation and purification products and technologies to a range of industries including the petro-chemical, power generation and mining industries. Operational reliability is improved by the superior filtration solutions in customers' water, oil, fuels and chemical plants.

BMG TECHNICAL RESOURCES

BMG leads the way in superior service, quality components and technical expertise through the new BMG Technical Resources Division, offering three key services to customers: Design Capability, On-site Service and Training Courses. BMG strives to keep our customers' machinery operating at optimal levels at all times, thus reducing down time and increasing productivity.

BMG ACADEMY OF EXCELLENCE

In order for BMG to deliver on our company promise to provide not only the quality components but strategic advice needed to keep our customers' operations in continuous motion, we have recently launched the BMG Academy of Excellence. The Academy aims to give staff the know-how to become technical solution providers to our customers and to train and empower staff, allowing BMG to be the preferred service provider and employer within the engineering industry.
